CLEAR INFORMATION. A USEFUL NEXT STEP.

09 / REQUEST A ROLE CONVERSATION

I would like to speak with [Player] and you about his current role and the next part of his development. He is doing [specific positive action] well. The priority now is [specific action]. Let's find a time away from the field's immediate game demands so we can make the plan clear.

10 / PLAYING-TIME QUESTION

Thank you for asking. I understand that opportunity matters to [Player] and to your family. I would like to explain what we are seeing, what his current role requires, and what he needs to show more consistently. I will keep the conversation on his development rather than comparing him with another child.

Name what the player, coach, and family will each do. Keep the assignment manageable.
